Summary

As a teenager at school, I was the kid other students approached about issues with their phone or laptop. I was the go-to guy for fixing and resolving any technical problems. Today, not much has changed. I'm still the first point of call for technical issues. The difference is I now trying to make it mine work for living. I'm learning programming languages and specialising in the app development arena. In mine school, I have learned Python but now for last 6 months, I have been trying to ace C++ and Java programming languages too.

Something that I love about programming is the opportunity to work with people from a wide range of disciplines. The software development lifecycle involves working with so many different people and departments and, as a people person and someone who loves to build new relationships, it's great to be able to come together with other professionals who are striving towards the same goal.

My natural curiosity for computers is what drove me towards my computer science degree. I've always been fascinated by computers and the technical mechanics behind the software's code. I'm on a pledge to code atleast 3 hours a day for 365 days without a day off and I am happy to say that I'm still maintaining mine consistency

When I am not working, I usually go for travelling to nature's beauty

Education

CHANDIGARH UNIVERSITY

Bachelor of Engineering - BE, Computer Science

Aug 2021 - Aug 2025

Holy Child Public School, Rewari

Schooling

Have been in computer science club head for more than 3 Years and had given many presentations in that club.

Also i am interested on coding and designing and had learnt Python and created 4-5 fully working real life practical projects on python like Student Management System, Library Management System and many more.

Have interest in chess and had won three gold and six silver medal in school's level chess competitions.

Academically I had scored 90% in mine 10th CBSE Boards and 91% in mine 12th CBSE Boards

Licenses & Certifications

Problem Solving(Basics) - HackerRank

71D212515D0B

 **IEEE MANTHAN - Membership Development Program - IEEE**
